## A WAY TO SCATTER DEATH

While we sympathize deeply with those who are unfortunate as to lose their little ones by death, we cannot but condemn the practice of people who live in the country round about Reno, bringing children who die from malignant and contagious diseases, like scarlet fever and diphtheria, into the town for burial. There have been cases of scarlet fever this winter which were carried home in clothing from funerals and communicated to children that had not been out of the house at all. The sentiment of anxiety which a parent feels to pay every possible respect to their dead, should in such cases give way to the public necessity. It would be far better to choose as handsome a place as possible in the immediate vicinity of their home, where the little bodies could be laid gently away without endangering other lives as dear as theirs were. The ground would become sacred forever after and no feeling of self accusation could come up on account of the location of the grave. Our friends in the country should consider the hundreds of little ones playing in unsuspecting innocence around the streets, little dreaming of the pestilence that walketh at noonday, which they may be taking into their lungs at any moment. We do not think any one ought to feel sensitive at the people of Reno for forbidding them from bringing their children here for burial when they die of these diseases. No compulsion should be necessary. Everybody ought to see the point and accept the situation at once without any compulsion.

## CORRECT.

We hardly believe there is any such place in Mississippi as "Okolona," as that it has any such paper as the "Statenman," or that there has been printed in any southern journal so foolish and absurd an item as the one in the telegrams. We believe it is a Republican lie, made out of whole cloth, telegraphed across the wires to produce political results in our three western states; that it is paid for by a party fund. We believe it is the first gun of a sulphurous campaign of fraud and misstatement. If we cannot elect a Republican President without lying about the south, and without dragging from its sepulchre the skeleton of the civil war, without exciting sectional jealousies, and stirring the angry passions of another internecine strife, we had better suffer defeat. This journal intends to support a Republican candidate for President. We hope to take an active part in an honorable campaign. We shall be glad to discuss national questions in a dignified and honorable way; but we give notice now, early in the contest, before our battle-blood is warmed by the excitement of the strife, that we will not help to explode them. No bloody shirt for this side of the continent. No negro persecution stories for us. Of this kind of politics, we are altogether disgusted.—S. F. Argonaut.

There are high grounds of difference between the two great parties, which should occupy the public mind, to the exclusion of trickery and sectionalism. The Republican party never yet took a high stand, and called upon the virtue and intelligence of this country in vain. Let us take up a gold coin standard, a reform in politics and like positions, and there is neither whiskey nor money enough in Democratic barrels to beat us.

## A PROPOSITION TO STOCK OUR STREAMS.

Hon. B. B. Redding, Fish Commissioner, has written Judge Parker frequently of late in regard to the preservation and protection of the native fish of this section. He desires to call the attention of all citizens to the matter that will take an interest, and where fish ladders are necessary from dams erected, will furnish the plans adopted for their structure, as the law requires all persons having dams constructed, to place fish ladders to afford the fish free transit. We make some extracts from the letter in regard to the stocking of our streams and lakes with other varieties of fish not found here. "I can send you young catfish, a year old now, in any reasonable quantity, a thousand or two, for distribution in Pitt river or in appropriate lakes, at any time. I can send them by express to Reading if you know of a person there who will change the water and convey them from that point to where you desire to have them placed. I sent some to Shasta county last year to be put into lakes there near Lassen Butte, but I never heard whether they were received and I am not aware that the case has been returned. If there are any lakes in your section we could send you some landlocked salmon in five or six weeks, the eggs of which we expect from Maine, but they would require some one to attend them from here on the

train. I could readily send them to Reading if you could have some person take them from that point and place them in the lakes. We succeeded in sending Lake Michigan whitefish to Reno, and from there to Bagley lake, Lassen county, where they will probably do well. If you or other persons will take an interest in this matter, and keep me advised of any new connections, or how fish could be best transported to your section of the country, I shall be glad to stock your lakes, streams and ponds with such fish as are appropriate to them.  
B. B. REDDING.

## EDITORIAL NOTES.

Frem Tucson, A. T., Caus Tomo 1, Num. 25, of El Fronterizo. In regard to the Chinese bill, it says: Si el Gobierno Federal no nos ayuda, nosotros somos capaces de ayudarnos mutuamente y pacificamente si es posible, y si por no medio de la fuerza armada. Vivimos en la creencia de que el Estado tiene el imperio de la ley y de promulgar leyes para impedir la inmigración de los Chinos entre nosotros, y fundados en este modo de pensar nos esforzamos en cuanto nos sea posible para conseguir que semejantes medidas sean adoptadas. Which expresses our opinion exactly.

## The Decline in Lead.

[Salt Lake Tribune.] Our lead mine owners are sorely puzzled on account of the reduction in the price of lead. While they knew that New York was a corner on the market, they are powerless, \$18 bids were made yesterday. There are no sales recorded at this price and those who have lead on hand seem determined to hold on. This territory, and Eureka, Nevada, can control the lead market. The yield from Leadville has not yet been felt and if our miners exercise a little caution now, before playing into the hands of the eastern bullion sharks, living prices will again rule.

## Tuesday's Fun.

SAN FRANCISCO, March 24th.—Thomas Francis O'Malley Baines held a meeting yesterday afternoon, at Seventh and Mission streets, in the name of the Anti-Mongolian League. He was accompanied by the ex-Democrat, D. M. Manning, who carried a Japanese sword. As soon as Baines began to talk the crowd set up such a yell, and he was obliged to quit, being pelted with mud, sand, etc. The crowd finally tore down the stand and broke up the assemblage. It was a grand farce, although at times it looked as if somebody would get hurt.

## A JOURNALISTIC BLOW-OUT.

The Ink-Slingers and Type-Stickers of Virginia and Gold Hill, met on a Double-Decker Jamboree.  
[Gold Hill News of Yesterday.] The journalistic and typographic banquet at the Virginia French rotisserie last evening in honor of Messrs. Harlow, Lyons and Stewart, was attended by nearly all the newspaper men on the Comstock. As indicated by the invitations, the especial object was to honor these members of the press fraternity who had proved true to their pledges as members of the legislature. In addition to the three gentlemen above mentioned, the other members of the Storey county delegation who did not "fall down" were invited as guests. This list included Senators Gibson and Schultz and Assemblymen Hanna and Fraser.

More formal gatherings have doubtless been seen in Nevada, but it would be difficult to bring together a more general company than the one at the French rotisserie last evening. The very soul of sociability seemed to pervade the hearts of all present, and a most enjoyable occasion was the result. E. L. Colson, of the Virginia Chronicle, presided in an acceptable manner. Toasts were responded to right heartily and appropriately by the representatives of the different papers and by the invited guests. The list of toasts included "The Press," "Our Guests," "The Sack," "The Mechanical Union," and other sentiments of a grave and humorous character. After songs, anecdotes, etc., the meeting at 12 o'clock adjourned with three rousing cheers for the members of the Storey county delegation who did not "fall down."

## Elopement at Antelope.

A correspondent of the Sacramento Bee writing from Antelope, Sacramento county, under date of March 23d, gives the following particulars of an elopement at that place:

Our little town of Antelope is in a state of excitement just now over the supposed elopement of a young man by the name of Lew Siggins, a brakeman on the railroad, and the wife of one of our citizens. The case is as follows: This woman has been in the habit of meeting young Siggins at his father's, and an intimacy followed the acquaintance, resulting in the breaking up of a family and the disappearance of the parties from the place. The woman came home from an interview with her paramour, on Tuesday evening last, and told her husband that she was going to leave him—that she did not love him as well as she used to, and on Friday morning she packed her things and went over to old man Siggins's, where the young man was staying. In due time her husband, wishing to look up the house, went over to request her to remove her things so that he could de-

and found her and young Siggins locked in a room by themselves, while Mrs. Siggins, to help them along, kindly stayed in her front room. He left on the 2 o'clock train and she on the 4 o'clock train, since which time neither of them have been heard from, notwithstanding her promise to be back on the 11 o'clock train. She leaves a hard working, industrious husband, with no one to keep house for him but his little daughter, ten years old. The above are the true facts of the case, as can be proven.

## Placer Mining.

[Tuscarora Times-Review.] For a long time the white men of Tuscarora have regarded placer mining in this vicinity as a very unprofitable business, and have given it up entirely to the Chinese miners. The latter have worked over the old claims season after season, and the amount of gold dust sold and shipped by them last summer would seem to warrant the belief that the white men have been mistaken, and that careful working of these or other claims, might be made very profitable. We were informed by one of our merchants, to whom the Chinese sold their gold, that the yield for last summer would not fall short of \$30,000. Very little work has been done west of old Chinatown, although traces of gold have been found on both Berry and McCann creeks. A prospecting outfit for such work, is not hard to get, and some of the men about town who are out of employment, might try their luck at placer mining.

Kearney stands out in lonesome prominence as the most peculiar character in American politics. No one but himself is his parallel; and nobody, as far as the country has been known to, aspires to be his rival.—Cincinnati Times.

Now, the fact is, both Tilden and Grant are the political scarecrows of the time—kept in the cornfield to frighten off all the other candidates and save the harvest for the small politicians.—Richmond (Va.) State.

The Prohibition party in Indiana, it is said, numbers 10,000 voters, who demand that no more liquor shall be sold as a beverage in that state.

Don't keep this a secret, but tell it to your neighbors.

JOTTINGS.

—Old Berens has quit blowing; out of breath, probably.

—A few more boxes of fine apples are left at the Star market.

—If you want bargains, go to Yankee Dodge's Cheap-John sale this evening.

—Sheriff Walker is airing his superabundant length of limb in Carson to-day.

—Nat Goodwin and the Eliza Wetherby Froliques are tickling the funny bones of the Carsonites.

—C. J. Brookins says he will be ready for business sometime next week.

—Joe Kelly, who was stabbed at the Lake House Saturday, is mending rapidly and will soon be able to be up.

—John S. Gilson has 120 acres of land and a valuable town lot for sale. Also a house to rent. See 50-cent column.

—Don't forget W. A. Wheat's auction sale of furniture in the rear of Odd Fellows' hall to-morrow afternoon at 1 o'clock.

—Buds on the trees are swelling, and if the warm weather continues for a few days the trees will begin to leave out.

—The doors have been hung and the shelving put in place in Osburn & Shoemaker's store. They will soon be ready to open.

—Business in the justice court has been light to-day. Nobody dressed up, drunk, or rode his mule too fast over the bridge.

—The solitary "tiger" that infested Reno before the fire has phoenixed. His lair was burned but he escaped to "claw" the boys up when he gets them in the box.

—A cloud of smoke was seen rising this morning in the direction of Glendale, as if a fire was raging there. What caused the smoke was not learned.

—The work of excavating the cellar for J. J. Becker and G. H. Fogg is progressing as rapidly as possible. The attendance of idlers is rather on the increase.

—The Chinaman who had his hide punctured by a fellow Celestial Sunday evening, is not mortally wounded as was reported. His wound, it appears, is only a slight one.

—Governor Kinkaid and party, who went to Elko to attend the funeral of ex-Governor Bradley, returned last night. They departed this morning for Carson.

—The warm weather yesterday melted a great deal of the snow on the foothills, for the Truckee has raised considerably since last evening. The water is very muddy, too, and some drift is coming down.

—C. H. Merrill will open a restaurant in A. P. Dallen's building, on the east side of Virginia street, day after to-morrow. These with a delicate regard for their stomachs will do well to make a note of this.

DRY WEATHER.

And the Cattle Men Anticipating a Limited Supply of Grass in Consequence.

Very little snow has fallen in the valley this winter, and, unless there should be considerable rainfall, stock men are apprehensive that the range may be insufficient to fatten cattle. Should the rainfall be limited, as is feared, stock owners in this vicinity will feel the want severely, as it is likely to cripple the cattle trade for a while. Fortunately the snowfall on the Sierra is amply sufficient to furnish all the water needed for irrigation purposes in the valley during the coming season. The hills and highlands, though, are parched for the lack of the aqueous element, and look dry and scant of herbage. They are perfectly bare now and have been so most of the time since winter set in. The lack of moisture causes vegetation to be very backward about springing up, and if no great amount of rain falls, the grass, of necessity, is bound to be short. The want of rain will not be felt so badly by the sheep men as by the cattle owners, as the summer range of sheep is higher up in the mountains.

Destroying the Fish.

The Indians hereabouts are in the habit of spearing fish in great numbers. This practice is very destructive to the fish, and also, operates as a hardship on white men who fish for a livelihood. The law says no person or persons shall catch fish in any other manner than with a hook and line. Indians are not exempted from the provisions of the statute, and their unlawful depredations on the finny tribe should be stopped forthwith. There is no reason why an Indian should be allowed to do what is unlawful for a white man to do, besides the injurious effects on the fish interests. Let it be known whether Indians are amenable to the law, or above it.

Appreciation From Abroad.

The *Tuscarora Times-Review* makes the following level headed remarks: Steam power is now used in printing the *Reno Gazette*. There has also been within the last month or two a corresponding improvement in the editorial and local departments of that journal, and its advertising columns indicate that the *Renoites* are not insensible to the benefits accruing from the publication of a live paper in their midst.

Sugar Pine Doors.

Carroll Kilburn's new building on the corner of Commercial Row and Sierra street, is rapidly approaching completion and will be ready to receive his fine stock of sugar pine doors, sash, blinds, transoms, etc., in a very few days. Mr. Kilburn is an old pioneer in this line, having been engaged in this business for the past eighteen years. Builders will find it to their interest to examine his goods.

New Style of Lamps.

J. M. Thompson has received some new styles of street lamps, patented by J. B. Hubbard & Son, of San Francisco. They are specially adapted for sign lamps of hotels and saloons. One is made so that it can be used on an ordinary lamp post, burning gas, or be used to burn coal oil in. Economy in using them is suggested from the fact that they are constructed so as to render chimneys unnecessary.

Sent to Alcatraz.

A detachment of soldiers, part from Company D, 8th Infantry, and part from Company C, 1st Cavalry, came in to day from Camp Bidwell, under command of Lieu. Norton to-day. They had in charge two prisoners, sent up for one and two years respectively, whom they were taking to Fort Alcatraz.

Furniture Sale To-morrow.

W. A. Wheat will sell at auction to-morrow a varied assortment of bedroom and household furniture, chairs, carpets, etc. The sale will take place in the rear of Odd Fellows' hall and will commence about 1 o'clock. All who want bargains in the furniture line had better be on hand. Terms, cash.

Way Up.

There is as much art in making good Bologna sausages as anything else. The properly prepared article is a toothsome morsel, and one that tickles the popular palate. Smith, at the Star market, understands the manufacture of this elongated edible to a dot. In flavor, they can't be beaten. Just try 'em, if you don't believe it.

For the Time Being.

W. R. Chamberlain has erected a temporary eating house alongside the railroad track, and is ready to accommodate guests with his usual care and hospitality. The bill of fare is first class, as of old, though the quarters are not so elegantly appointed as before.

Conversational.

D. A. Bender & Co. have got a telephone established between Reno and Virginia City. By this means communication between the two points will be greatly simplified, thereby facilitating stock operations.

Hopes Entertained.

Dr. Snow says the two youngest children of Isaac Johnson are in an improved condition to-day, and that he entertains some hopes of their ultimate recovery, although their situation is precarious in the extreme.

Must be Hurling Somewhere.

The shining light of the *Au Fait* club and non-commissioned officer in the "bread and butter brigade," who, for the nonce, wields the pen and scissors for the *Carson Appeal*, fires a vicious broadside at the *Gazette* and the *Riverside* club. The *Carsonites* are entirely too sensitive about small matters, but come to think of it, their self-love is no small matter. The *Gazette* has nothing to be ashamed of in relation to the visit of the *Au Fait* to Reno. The *Riverside* club is one of the things that were, died of too much gentility and formality, and from the appearance of things, the *Carson* people would save themselves much tribulation and vexation of spirit by disbanding their own organization. They expect too much and get too little. Their journeyings around in search of pleasure are very much like the legislator's experience, who received a telegram that his constituents were waiting for him, and took along a newspaper reporter to write up the affair. He got received and all that kind of thing, but it didn't suit, somehow. Instead of meeting him with a triumphal car, brass band, and all that, they rode him on a rail, to the tune of the "Rogue's March," for falling down to the money. And about the "unpaid for supper," there was a mistake about the whole affair, but it is useless and foolish to endeavor to explain it now. Mr. Chamberlain was a member of the *Riverside* club and furnished the "unpaid for supper." He says as long as he don't kick about it, there is no reason for other people to. The people of Reno are sociably inclined, even if they don't belong to the *long*, and will treat strangers from Carson or anywhere else with courtesy and hospitality whenever the opportunity offers.

A Delicate Operation.

Drs. Johnson, Conn and Price, of Virginia, and Drs. Dawson and Lewis, of Reno, performed the delicate surgical operation of removing a tumor from the breast of Mrs. C. C. Huffaker, at Huffaker's station, this morning. The tumor was a very large one, weighing a pound and three-quarters. Although the operation was very painful and the tumor in a dangerous place, it was performed so skillfully that only a small amount of blood was lost. Mrs. Huffaker bore the operation remarkably well, but it is extremely doubtful if she will entirely recover. The physicians who performed the operation are unanimously of the opinion that the present dangerous condition of the lady is largely due to the malpractice of an individual, calling himself a physician, by the name of Vance. They are confident in the belief that this man has, in a great measure, lessened her chances of recovery. There is a law against quackery on our statute books, which should be enforced. Any person who represents himself as a physician and prescribes as such, without having a diploma from some regularly chartered medical college, is guilty of a misdemeanor. It is also probable that if any unqualified person should kill another by malpractice, that person would be liable for murder or manslaughter.

Building Notes.

Mrs. Jones is building a two-story frame dwelling on Plaza street. A wooden roof is being put on the Grangers' store, over the fireproof one. Cunningham & Winchell are putting a small frame building on the east side of Virginia street. A force of workmen are busy laying the stone foundations for the new Depot hotel. Charlie Chase is building a handsome two-story building of redwood on Lake street. Mrs. Gibbs is having a one-story frame house built on the Plaza. Dave McFarland has got his fireproof cellar about finished, and will soon be in readiness to rebuild. Workmen are busy repairing the walls of L. Wintermantel's brick building on Centre street. Work on Judge Marshall's building, formerly the Wine House, is progressing finely. Hoffman is building a frame house between Dave McFarland's and Prescott's. Several small wooden buildings are being erected between the round house and the Catholic seminary. A mammoth cellar is being dug for the building of Jake Becker and Steele Bros., and Henry Ruhe. It will be 60 by 62 feet, and fire-proof. The building itself is to be 75 feet front by 60 feet in depth.

Cutting Scrapes.

A man came up the stairs, three steps at a time, this morning, and asked a busy reporter if he had heard of the cutting scrape down town. Reaching for a clean piece of paper, the reporter answered in the negative.

"Well," said the obliging individual, "you know that little white-headed barber in Nick Hammer-smith's—the one in the left hand corner—the good looking little fellow; you know him, don't you?"

The reporter said: "Never mind whether I knew him or not; what is his name and who did he cut?"

"Well his name is Johnny Bels and he cut Ike Chamberlain's hair."

Here the steam editor landed the visitor through the window.

Steam Presses.

Bring in your orders for all kinds of printing to the *Gazette* office. Any kind of work, from a mammoth poster to a wedding card, turned off in good style and on the shortest possible notice.

Personals.

R. D. Paschen, of Truckee, is in town to-day for the purpose of buying a car-load of sheep.

Surveyor-General Hatch offers a reward of \$100 for the most complete report furnished by any county assessor for this year, 1879.

C. P. Shakespeare, member of the assembly from Esmeralda county, was in town yesterday, and left for his home this morning.

Go and See Them.

Katz & Henry, of the Crystal Peak Lumber Co., at Verdi, are now prepared to fill orders. Anything in the line of rough and dressed lumber, flooring, ceiling, fencing, mining timbers, wood, etc., they can furnish at the lowest market rates, and of the best quality. Their advertisement appears elsewhere.

Salmon.

Fish Commissioner Parker on Saturday last planted 12,000 young salmon in the Truckee. Mr. Parker intends to plant 80,000 more in the river at once.

Have Phoenixed.

Osburn & Shoemaker, at their old stand, have for sale white lead, linseed oil, turpentine, coal oil, varnishes and window glass; also, sash and timber set-d. Early in the coming week will have a full supply of drugs and medicines, and the finest stock of garden and flower seeds ever brought to Reno.

Parties having watches in Davidson's Jewelry Store, at the time of the fire can get them through Mr. Goegle, at John Sunderlands Boot and Shoe Store, on Virginia street. Repairing of watches and jewelry done speedily and accurately.

Two Fire Proof Stores.

L. Wintermantel will add a story to the brick on Centre street and use it for a lodging house. The two rooms in the lower story, 23 by 72 feet, will be rented for stores. There is a good cellar under the whole building.

Garden Seeds.

Osburn & Shoemaker have just received from the celebrated gardens of D. M. Ferry & Co., Michigan, the largest and best selected stock of Garden, Field and Flower seeds, ever brought to Reno, which they offer at low down prices. Also a large lot of those popular ladies floral sets. Catalogues free.

The Arlington Avenue Nurseries have a reputation as broad as the State. Every tree and plant from the greenhouse to the orchard constantly on hand. Terms reasonable, prices low enough and satisfaction guaranteed. Address: UBER & MANUS, Reno, Nev.

Paints and Oils.

F. Bosch has received a big stock of Paints, Oils, Glass, Licks, Nails and all kinds of building material, which he will sell over than ever before in Reno. Give him a call.
